Facts about DILLECTRIC

Important to You...

DILLECTRIC

Reduces Tire Adjustments

Dillectric repairs do not "shortcut" any essential steps! Result is Dillectric repairs eliminate a major cause of tread separation—inside seepage of air into the cords . . . and prevent fabric deterioration caused by water and road surface materials from the outside.

DILLECTRIC

Is Fast... Takes only 4 Minutes for Tube Repairs, 6 Minutes for Tubeless.

DILLECTRIC

Is As Modern As Tomorrow!

Vulcanization is more important—more vital—in modern tires than ever before. Meet modern day demands with the modern method—Dillectric Electrically vulcanized repairs!

DILLECTRIC

Is Worth A Premium Price

Dillectric is the safest, surest tire repair available . . . delivers far more in safety and protection! Result: Dillectric dealers are charging more—getting more—for Dillectric!

DILLECTRIC

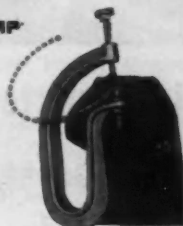

Is Simple To Operate

Anyone can learn the easy steps in just minutes! Easy step-by-step instructions packaged with every Dillectric unit.

NEW INSULATED "U" CLAMP CARRIER HEAD SPEEDS TUBELESS REPAIRS

New head is the size of a nickel, old head the size of a quarter. If you have the old slower head, consult your supplier for no charge replacement! Specify 6690-20.
